

# School Purpose Statement

The purpose of Living Word Lutheran School is to develop a closer bond between school, home and church while providing a Christ-centered educational experience for children in Kindergarten through 8<sup>th</sup> grade. The education will be of the highest quality and the Christian atmosphere of the highest priority.

Living Word Lutheran School will strive to meet the educational needs of children who are members of our congregation as well as those of children from the community. Living Word Lutheran School will share the love of Jesus with the church and unchurched families who attend the school.

Living Word Lutheran School will aim to assist parents in helping children learn to love and serve God by loving and serving others, and therefore be messengers of His great love to the world around us. We will also assist parents in raising children who are prepared to enter the fuller dimensions of future school life with values and skills which guide them towards success.
